

The Seaworks Maritime Discovery Centre

Invite you to the opening of

our permanent exhibition dedicated to

The Royal Australian Navy

through its historic link with Williamstown and the

H.M.A. Naval Dockyard Williamstown

The opening will be at The Seaworks Maritime Discovery Centre

82 Nelson Place Williamstown on Sunday 25<sup>th</sup> August

commencing at 1pm.

*A feature of the exhibition will be one of the finest collections of model naval ships ever put together. They are part of over 50 models built by Max Montague. Upon his retirement Max needed to keep his mind active so he decided to build model ships, many of which you see displayed here today. Max has also built many other models:*

*When you look at these models today, you will notice the detail on them, detail that you don't see on other models. Max would study photos and if he noticed anything on the ship that wasn't in the original plans, he would include it on the model.*

*His efforts to keep naval history alive have produced 50 Navy ships. He is a perfectionist*

*Admission by Gold Coin Donation*
